# MEME TO REALITY

A SALUTE Riddle Comic

Inspired by @salutexrpl

They said it out loud, on the banner and the site...

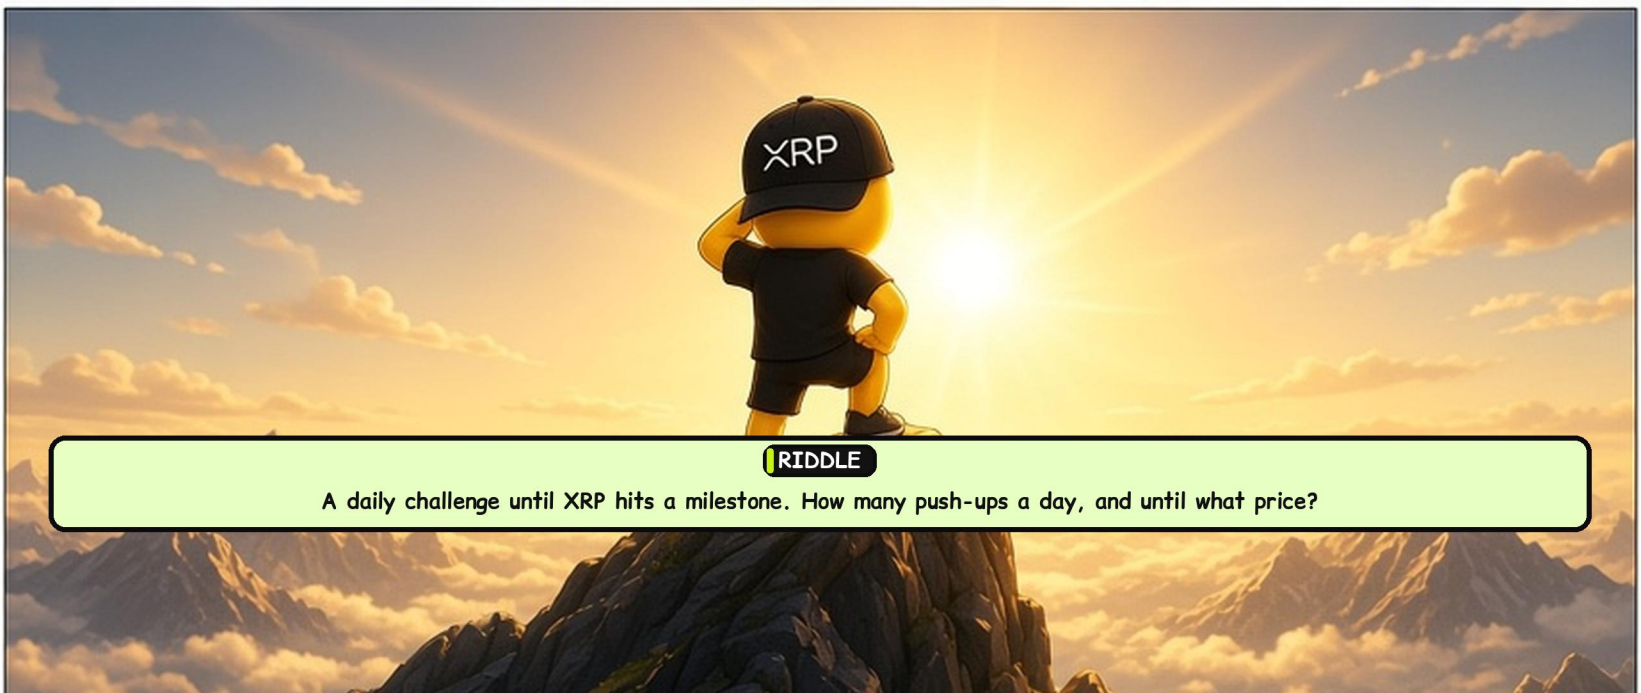

**RIDDLE**

The official banner is clear: SALUTE isn't just a token. What did they say it is?

Inspired by the salute itself, a daily challenge began.

RIDDLE

A daily challenge until XRP hits a milestone. How many push-ups a day, and until what price?

First it mirrored a familiar scale. Then a great share was given back to the fire.

**RIDDLE**

They began by mirroring XRP's 100 billion, then burned 37 billion. What is SALUTE's total supply now?

On this ledger, reputation has only one path.

RIDDLE

The bio puts it plainly, in six words. How is reputation gained?

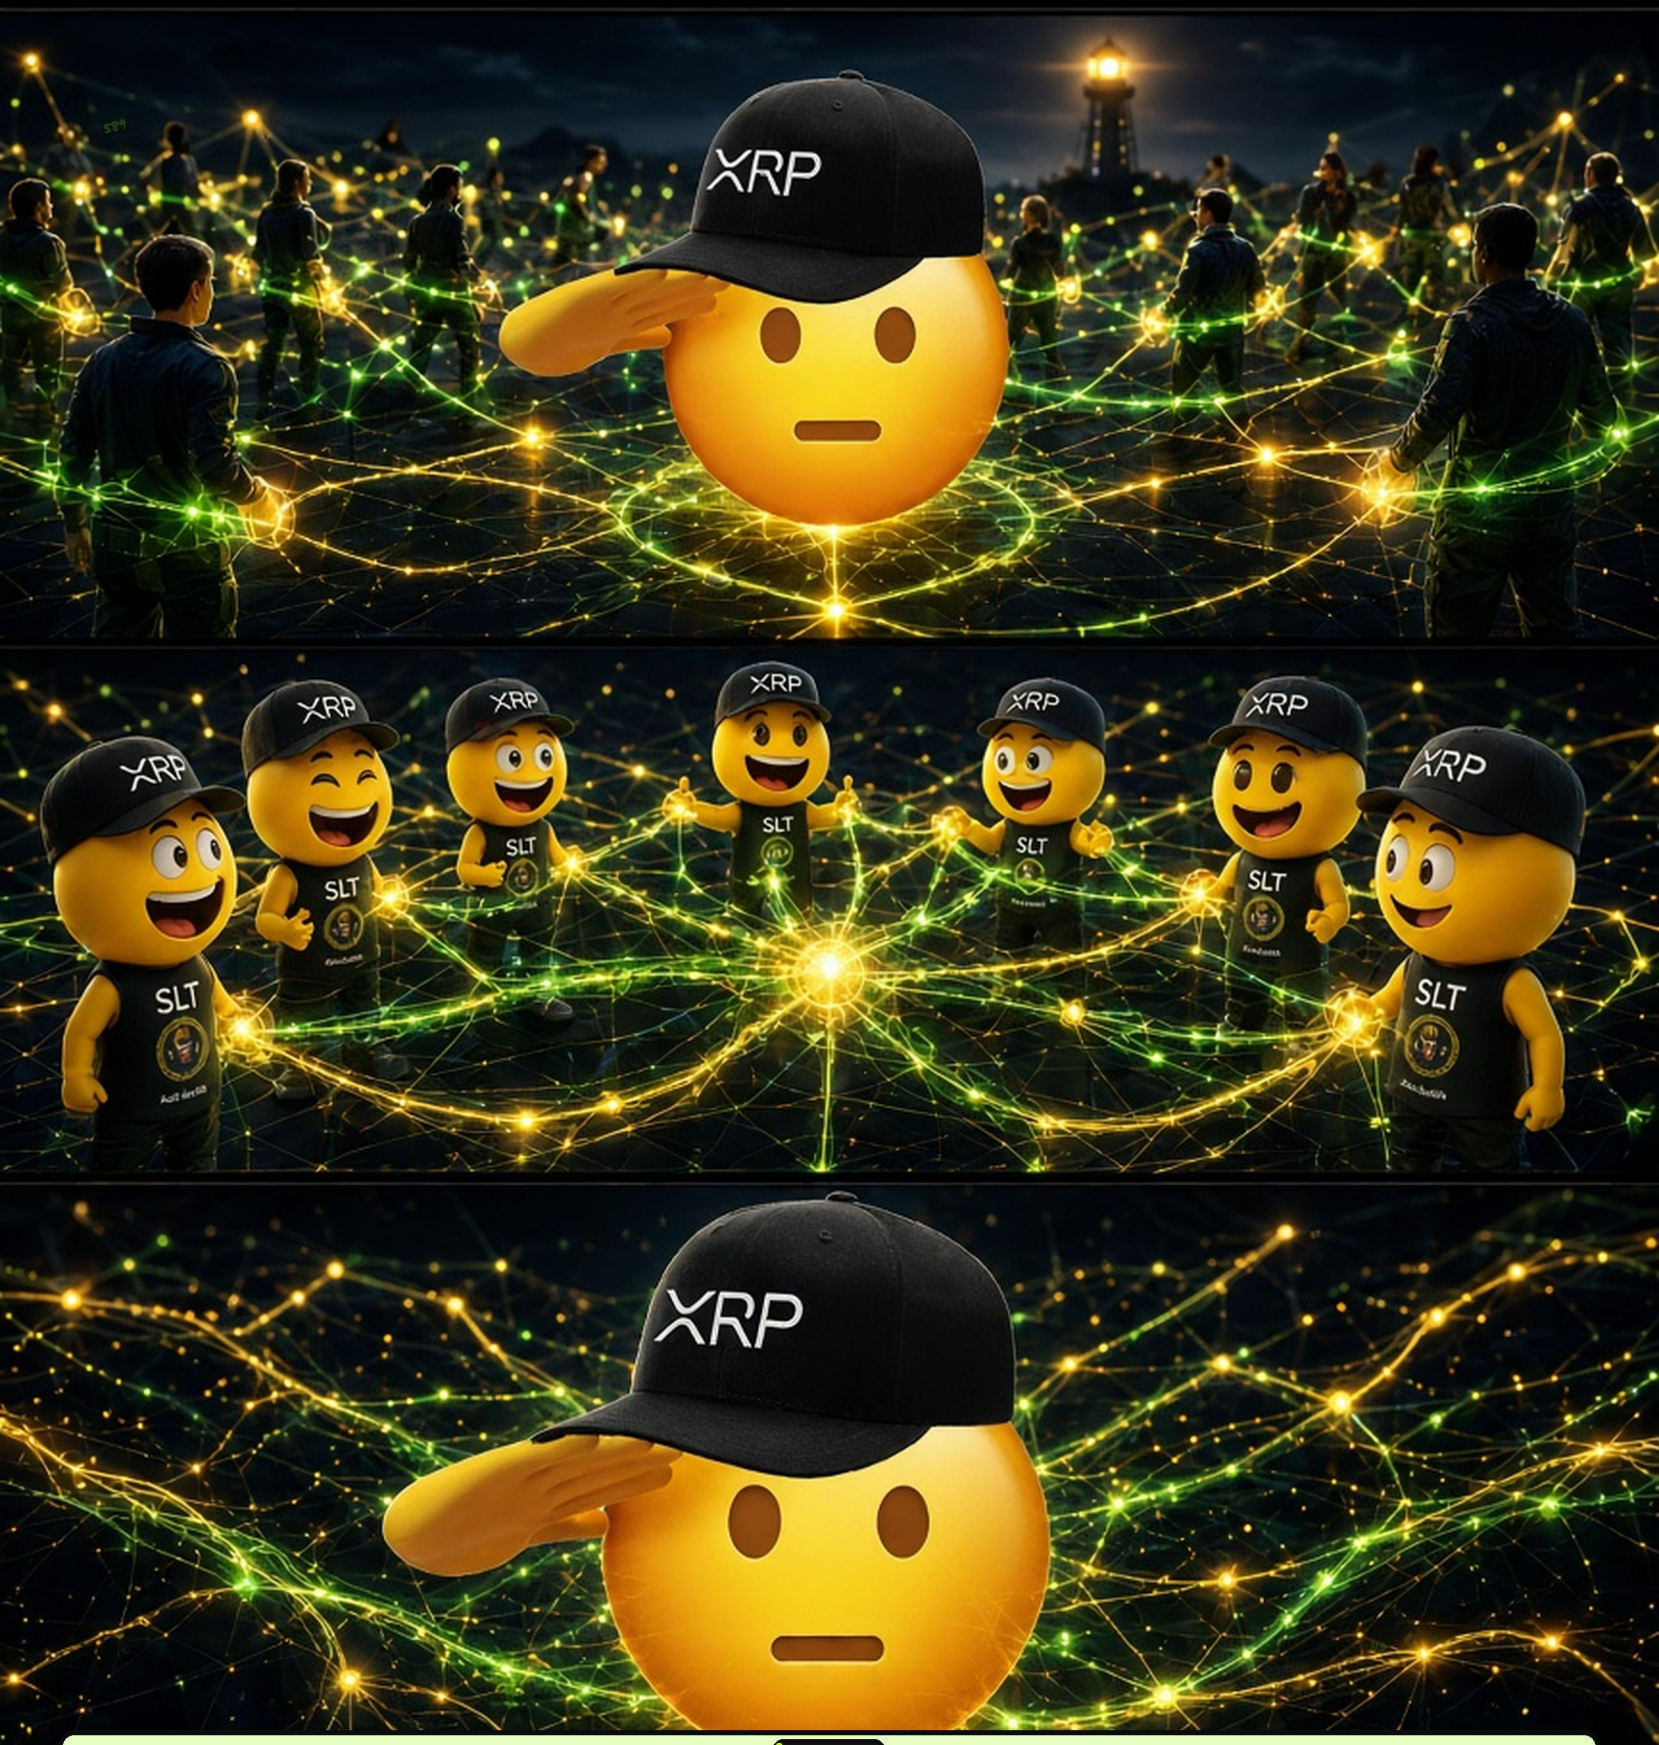

Midwinter. A new token took its first step on the Ledger.

**RIDDLE**

On what date did SALUTE launch on the XRP Ledger?

Beyond the meme, a network for everyone.

**RIDDLE**

The bio says they are building this for everyone, powered by the XRP Ledger. What kind of network?

# ANSWER KEY

1. A symbol of belief in XRP's potential — what the official banner says SALUTE is, beyond a token.

2. 100 push-ups a day until XRP reaches $100 — the daily salute challenge from the official site.

3. 61,240,000,000 $SLT — after 37 billion were burned from a supply that first mirrored XRP's 100 billion.

4. Reputation is earned, not bought. — six words from the @salutexrpl bio.

5. December 5, 2024 — the day SALUTE launched on the XRP Ledger.

6. An open credit and reputation network — what they are building for everyone, powered by the XRP Ledger.

This comic is new fiction inspired by posts from @salutexrpl and the public $SLT site, xrpsalute.com. It is not official canon.
